

February 17, 2021

Dear Parent/Guardian,

The Farrell Area School District will operate remotely for all students on Friday, February 19, 2021. Instruction for all students will be delivered virtually, and students should log onto their iPad or Chromebook by 8:00 a.m. Please remind your child to bring their technological device and instructional materials home with them tomorrow.

Also, this Friday, Walberg Family Pharmacy will be having a COVID-19 vaccination clinic at the E.J. McCluskey Gymnasium from 7:00 a.m. – 12:00 p.m. They will also be administering the second round of the vaccine on March 12, 2021 at the E.J. McCluskey Gymnasium from 7:00 a.m. – 12:00 p.m. The District will operate virtually on that date as well.

If you desire to obtain the COVID-19 vaccine and you fall within the guidelines of Category 1A (which is the group that the State is currently offering vaccines to), you may register through the Walberg Family Pharmacy website. You can also find the link on our website. We ask that you arrive approximately 15 minutes prior to your scheduled time and no earlier than that.

Please contact the elementary or high school office if you have questions regarding remote/virtual instruction. Contact the Walberg Family Pharmacy if you have questions regarding the vaccination clinic.

As always, we appreciate your cooperation and support as we work together to educate our students.

Sincerely,

Dr. Lora Adams-King  
Superintendent
